

Cambridgeshire Historic Churches Trust

Alconbury church roof was recently fitted with an alarm with the aid of a grant of £1,000` from Cambridgeshire Historic Churches Trust (CamHCT).

Alarms are the only proven deterrent to protect against metal theft; they are designed to be virtually invisible and can detect and deter intruders before any damage is caused. Without them, the insurance pay-out in the event of a theft is drastically reduced.

CamHCT offers grants and loans to help congregations look after their historic places of worship. Its main source of income after membership is the annual “Ride and Stride”. Each September sponsored cyclists, motorists and walkers visit churches, chapels, and colleges throughout Cambridgeshire, sharing the money raised between the Trust and their local church.

The PCC and congregation are very grateful for this grant and have sent due thanks to Cambridgeshire Historic Churches Trust (CamHCT)

Details of the Trust’s work can be found at www.camhct.uk
